

Software Engineering, CPSC-4360-01 and CPSC-5360-01

Assignment 2 (Due Date: Monday, 03/14/2011)

Continue the business model of the 'Matching your resume to the best job' project described in Assignment 1. Based on the use cases description, sequence (or collaboration) diagrams, define a correct and complete state-chart for the 'Matching your resume to the best job' project. Identify which design patterns are appropriate for implementing the state-chart into Java programming language.
